Custom
Wide Tread
Radial

The best of the radials! Four straight-tracking, tread-firming 3-T rayon belts, 2 smooth flexing 3-T polyester cord radial body plies. Built in the wide-low design that puts up to 8 full inches of tread on the road, lets you feel a real sense of stability and steering control. And it's a design that puts 6 plies of bruise and puncture protection between the tread and the inside liner. The Custom Wide Tread Radial is reverse molded, so that it makes full traction contact when inflated. Shoulders are rounded for minimum rolling resistance, the best possible riding qualities. 70-Series sizes.

WILL CAGLE-TOPS THE FIELD

Will Cagle of Tampa, Florida "Let it all hang out" at Rolling Wheels Raceway Friday night as he copped the fifty lap special that opened the 1972 season. The race started out as a race for the re-starts as Jack Johnson, Cagle, Kenny Shoemaker and Harry Peak all held the lead in the early going. There was little question that the outer groove was the quickest and after each caution flag, the outside car usually would end up with the lead. Cagle finally took over for good on the 22nd lap and was never headed. Jack Johnson of Schenectady held on for the second spot while Canadian champ Stan Friesen of St. Catherines finished third. Rounding out the top ten were Don Beagell of Binghamton 4th, Harry Peak of Schenectady 5th, Dave Lape of Canajoharie 6th, Hughie Tripp of Welland, Ontario 7th, Ivan Little of St. Catherines 8th, Frank Mears of Clark Summit, Pa. 9th, and Bud Ward of Kings Ferry 10th.

Several spectacular accidents kept the fans on the edges of their seats during the qualifying..... Richie Evans of Rome and Pepe Peppicelli of Schenectady tangled in the first lap of the second heat off the back straight. Peppicelli was unable to continue but Evans, showing the style that made him New York State Driver of the Year in '71, came back to gain a feature spot only to run into mechanical difficulties in the fifty lapper. The second heat was also a tough one for Chuck Ciprich of Burdett. Ciprich, in a new ride in the Sandman Special, had a throttle stick while leading at the end of the eighth lap and wound up trying to squeeze his car underneath the lap counter off the first turn.

Heat wins went to Harry Peak of Schenectady, Chuck Akulis of Windsor and Cagle. The consolation was won by Dave Lape of Canajoharie.

Over 40 cars signed in for the "Modified Only" show that started the season. Next week will see the opening of the regular double feature events as the Late Models join the modifieds for two complete shows of qualifying events and features. A new rules change has revitalized the Late Model division and promoters Bob and Don Petrocci say they are expecting a huge field for next Friday night. Racing, as usual, will get under way promptly at 8:30 P.M.

ROLLING WHEELS

CHATTER

Last Friday was a nite of action. The show got off on time and the first heat found Pepe Peppicelli's throttle stuck wide open and he found himself parked on our guardrail stock pile. (see photo)

Soon after in one of the following heats, Chuck Ciprich driving the Sandman Special tested our lap counter sign when his throttle stuck wide open as he roared down the front straightaway. This car was new from the ground up - completely rebuilt last winter. What a let down it must be to have something like this happen to Rolling Wheels No. 1 racing family (young Bob should have a new L.M. running this week) By the way, Chuck Ciprich was unhurt in that lap counter incident.

I'd like to thank the fans who came to the show last Friday nite because I realize how cold it really was out there. Those of you who came were our hard core race fans.

Anyone care to guess how many late models there'll be tonite? I have no idea. If all of them show up who registered - watch out.

Lonesome George Ely - mighty lonesome as he rams the front wall on a restart.

Ken Shoemaker spins it on the 4th corner. He tried to power out of it but didn't make it. He pulled onto infield.

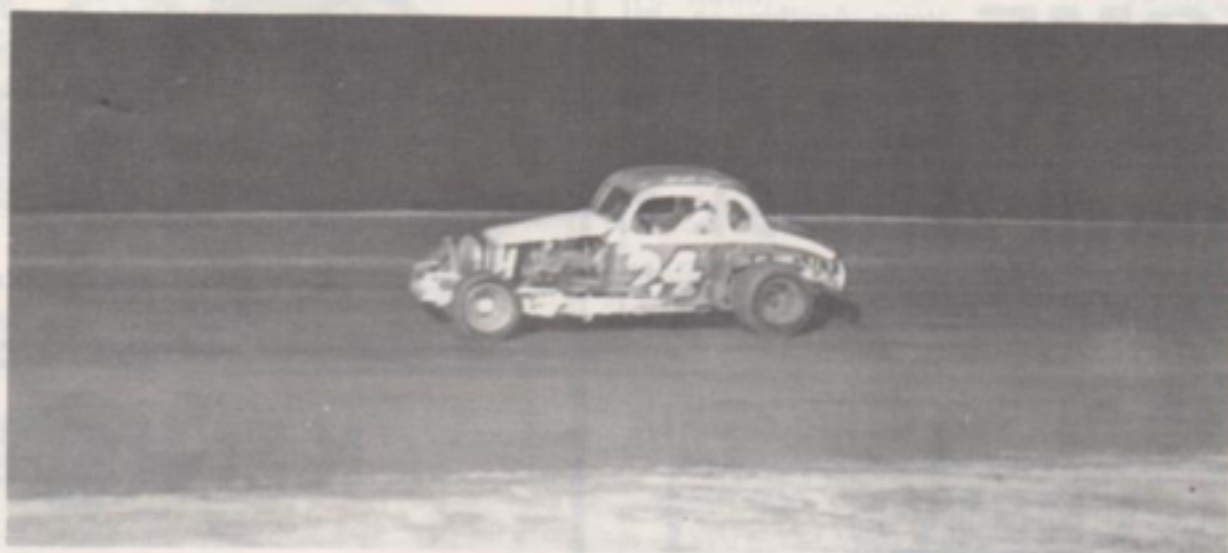

Dave Lape the big winner at Weedsport Speedway powers down the front straightaway.

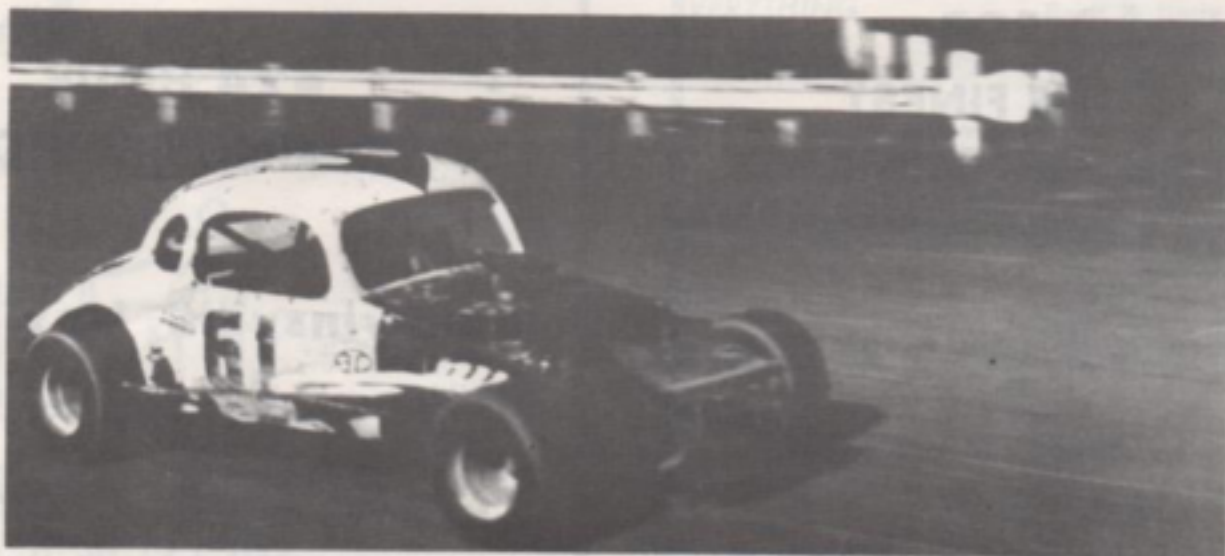

Pepe Peppicelli finds himself parked illegally (?) on the guard rail stock pile. Pepe was unhurt and so was the car.

Big Lou Lazzaro of Utica, N.Y. trying his hand at the fast wheels track.

In all his glory Will Cagle powers down the back straightaway on his way to the 50 lap feature win.

Richie Evans of Rome, N.Y. on the fast Rolling Wheels clay still has yet to find the right groove here at the fast 5/8 mile.

Infield Insights

By DON DUNHAM

Well it sure seems good to be back at the wheels again. It sure seemed like winter was going to last forever. We had good weather for opening night, and the track was in great shape, and there was action aplenty.

Jack Johnson seemed to have some overheating problems during the warm-ups, it was from his radiator screen being clogged with mud.

The #36 of Dave Buanno of Johnstown, N.Y. is an all new machine this year. It's an awfully long haul for Dave to run here at the Wheels, but I was glad to see him here. Dave is a NASCAR driver and his home track is Fonda Speedway. I guess Dave would like to sell his car this year if he could, and just get a ride with someone else. He told me his wife has been sick for quite a while. So from all of us here at the Wheels, we wish her a very speedy recovery.

Another car in the pits I know you'll all recognize is the white coupe #111. The former Sam Reakes car. It is being driven this year by Russ Kincaid. If any of you have been to a mini stock race you should recognize that name. Last year Russ drove a Saab, and what a screamin' machine that was. This is his first year in the sportsman ranks. The car has a few handling problems yet, but with some experience and a few adjustments I'm sure this car will be a contender before the season is over. Good luck Russ.

Terry Edwards was having a few problems Friday night. He said the car wasn't geared right and then the gas tank sprung a leak.

I saw a good friend in the pits without his car, and that was the fine young Canadian driver from St. Catherines, Davey Moore. He told me his car is not done yet. It will be an all new machine for this year, the only thing that will be the same will be the body. Dave has learned a lot from his past experience, and is going to use what he has learned in building his car.

Boy that sure was some ride Chuck Ciprich took through the Amalie sign in the first turn Friday. His gas pedal stuck going down the front straight, he tried to lift the pedal but to no avail and had to ride it out. He did extensive damage

to the Sandman Special but no damage to himself. Chuck has taken over the driving duties of this car from Ed Ortiz, last year's track champ. Chuck will also be driving in the supers at Oswego this year in the Herm Graf car. Best of luck Chuck.

Everybody's favorite, Wee Willie had rough luck Friday, he and Jim Winks were fighting for the lead in their heat when Jim got crossways in front of Willie for a second, and they both lost quite a few positions. Then Willie's A5 blew a head gasket and was out for the night. He gets my hard luck award for this week.

Congratulations to the "Tampa Terror", Will Cagle, on his fine drive Friday. He is going to be the man to beat this year, if he makes the Wheels his home track this year.

That's it for this week, keep them Wheels rollin'.

TOP 10 at ROLLING WHEELS

POSITION	CAR NO.	DRIVER
1	24	Will Cagle
2	12	Jack Johnson
3	52	Stan Friesen
4	170	Don Beagell
5	27	Harry Peek
6	22	Dave Lape
7	77	Hugh Tripp
8	61X	Ivan Little
9	26	Frank Mears
10	45	Bud Ward

A WILD RIDE

Chuck Ciprich leading the second heat in the brand new Sandman car 12 catapults over the steel guard rail and into the lap counter sign after the throttle on the No. 12 stuck wide open. The car landed under the sign and Chuck emerged from the totaled machine a bit shaken up , but otherwise OK.

WHAT A LINE WE'RE GIVING YOU FOR '72!

CRESTWOOD
MOBILE HOMES, INC.

As you walk through a Crestwood Home you will notice the use of rich materials treated honestly and tastefully. The kitchen cabinetry is satin finished inside and out. The appliances are conveniently located to make your work enjoyable and effortless. If you don't mind waiting a few extra weeks you may request special items and materials to be used in your personalized home. You will surely be happy with a Crestwood Home... you designed it.
